## INVITATION TO AN INTERNATIONAL CONFERENCE

### Partnership of University of Ljubljana Faculty of Education and educational institutions

on the topic

## THE QUALITY AND ASSESSMENT OF KNOWLEDGE

**A one-day conference will be held at the University of Ljubljana Faculty of Education,  
on January the 20<sup>th</sup> 2017.**

The conference will include plenary lectures of domestic and foreign experts, sectional lectures, and posters. We will try to answer the questions in the following areas:

#### ***Evaluation of knowledge and quality of instruction – lesson plans and tests of knowledge***

Whether and how are the objectives, contents, methods and principles of instruction in individual subjects considered in the composition of knowledge tests?; Whether and how the assessment takes into account the taxonomy (different complexity and types) of activities?; How the teaching and assessment takes into account the principle of differentiation and individualization (less and more able students)?; Are adjustments in teaching also required for the adaptation of the assessment of knowledge?; How is formative assessment reflected in the individualized program?; How is the assessment of knowledge held in internal schools in special educational institutions?; How is the quality of education influenced by attitudes, the climate, and the management of institutions, etc.?; How to achieve the quality of education in the correctional institutions?; How is the evaluation of the experimental/practical skills organised?

#### ***External assessment and summative and selective role of tests of knowledge for the next level of education entry***

How the composition of the national and Matura examination tests of knowledge ensures achievement of the fundamental and higher standards of knowledge?; How in the composition of the external tests take into account the differentiation of instruction and different capacity of participants?; How to ensure that the results of the external verification of knowledge will affect the quality of instruction in the future?; Quality assurance on the basis of the comparison of the assessment of knowledge and outcomes in the National verification of knowledge/the Matura exam?

#### ***Quality in kindergartens***

How, regarding the principle of professional autonomy, to ensure the quality of implementation of activities in the kindergarten with the assessment of the achievement of the curricular objectives?; Evaluation of input, process and output indicators of the quality of the kindergarten?; Monitoring

and evaluation of the achievements of children in different areas of development and learning ? Is it possible to monitor and assess the achievements of children in different areas of development and learning, taking into account the relationship between learning-content, learning-aims and developmental-processing quality? How to ensure the quality of professional development in Slovene kindergartens? Slovene preschool institutions 2030 – three decades of successful paradigm of an open curriculum?

Everyone is cordially invited to actively participate. Abstracts will be accepted until **5. 12. 2016**. On the web connection, <https://www.1ka.si/a/106236> there is a form with short instructions. All active participants, who will present the paper, will receive a certificate of active participation at international conference, scored according to the Regulations on the promotion of employees in education into titles (Ur.
