Pogoji za vključitev v delo oz. za opravljanje študijskih obveznosti:

Vpis v letnik študija.

Prerequisites:

The enrolment in the study year is required.

Vsebina:

1. Struktura izobraževalnega sistema.
 2. Formalno izobraževanje / Neformalno izobraževanje.
 3. Pedagoški modeli / razvojna psihologija (Janusz Korczak, Montessori, Rogers, Vygotsky, Jena Plan, Freinet, Paulo Freire, Dewey, Decroly, Bronfenbrenner, itd.).
 4. Razvoj kurikuluma: cilji, vsebine, dosežki.
 5. Učno okolje: čas, prostor, viri, skupina otrok in odnosi med njimi.
- Procesi učenja in poučevanja:
1. metode/strategije;
 2. pedagoška diferenciacija;
 3. ravni oblikovanja kurikuluma: makro/nadnacionalna/nacionalna; srednja/lokalna/šolska; mikro/razredna.
- Ključni elementi načrtovanja:
1. cilji;
 2. učni dosežki;
 3. vsebina;
 4. čas;
 5. prostor;
 6. udeleženci;
 7. strategije;
 8. dejavnosti;

Content (Syllabus outline):

Cilji in kompetence:

Cilji modula:

1. zaznati/opaziti in razumeti razlike in podobnosti znotraj izobraževalnih programov, konceptov in sistemov v evropskih državah in njihove spremembe s primerjanjem podobnosti in razlik;
2. dolžina in posebnosti izobraževanja na različnih ravneh (struktura izobraževalnega sistema) - npr. osnovnošolsko izobraževanje, izobraževanje učiteljev;
3. struktura in namen kurikulumuma;
4. glavni izobraževalni koncepti;
5. formalno izobraževanje -javno, zasebno, alternativno (pedagoški modeli/razvojna psihologija);
6. neformalno izobraževanje - knjižnice, gledališča, muzeji, bolnišnice, športni klubi, knjižnice z igračami, policija, glasbene šole, parki, nevladne organizacije, neprofitna nevladna organizacija Children's Resources international (CRI);
7. najpomembnejše osebe v različnih izobraževalnih sistemih (na Poljskem: Janusz Korczak);
8. systemska analiza izobraževalnih okoliščin, primerjanje podobnosti in razlik;
9. osnovni elementi izobraževalnega sistema v povezavi z razvojem kurikulumuma: cilji, vsebine, dosežki;
10. značilnosti učnega okolja (čas, prostor, viri, skupina otrok in odnosi med njimi);
11. primerjava podobnosti in razlik pri procesih učenja in poučevanja;
12. načrtovanje didaktičnih situacij z različnimi teoretičnimi pristopi na osnovi razumevanja značilnosti različnih ravni oblikovanja kurikulumuma (mikro, srednja in makro raven), razumevanje ključnih elementov pri načrtovanju: cilji, učni dosežki, vsebine, čas, prostor, udeleženci, strategije, dejavnosti, viri in orodja za vrednotenje);
13. razvijanje interaktivnih in timskih delovnih veščin (med vsemi udeleženci učnega procesa: ostali učitelji, nepedagoško osebje, družine, institucije, ki izvajajo neformalno izobraževanje: gledališča, muzeji, knjižnice, športni klubi, itd.), v luči sodelovanja;

Objectives and competences:

Module aims:

Predvideni študijski rezultati:

Znanje in razumevanje:

1. priklicati pedagoško terminologijo in jo ustrezno uporablja v različnih kontekstih;
2. predstaviti in razložiti značilnosti izbranih evropskih izobraževalnih sistemov in se zaveda zgodovinskega in socio-kulturnega ozadja njihovega oblikovanja in spreminjanja;
3. razlikovati in ovrednotiti elemente didaktičnih/poučevalnih situacij in prepoznati ključne točke, ki vplivajo na učinkovitost poučevanja - ter nato uporabiti spremembe v svojem načrtovanju izboljšanja učinkovitosti poučevanja in olajšanja procesa učenja;
4. kritično analizirati pouk, njegovo načrtovanje, izvajanje in učinke (refleksija pred delovanjem, refleksija med delovanjem in refleksija po delovanju);
5. sodelovati pri timskem delu.

Intended learning outcomes:

Knowledge and understanding:

The student is able to

1. achieve/mobilize knowledge of pedagogical terminology and apply terminology properly in various contexts;
2. present and explain the characteristics of selected European educational systems, and refer to the historical and socio-cultural context of their creation and transformation;
3. distinguish and evaluate elements of didactic/teaching situations and to extract critical points which influence the effectiveness of teaching - and then apply changes in his plans to increase the effectiveness of the teaching and facilitate the learning process;

Metode poučevanja in učenja:

1. Timsko delo - majhne skupine (4) s študenti iz različnih držav.
2. Sovrstniško poučevanje - majhne skupine (3/4) iz različnih držav.
3. Debata, nevihta možganov, panel diskusija, predstavitve, miselni vzorci.
4. Terensko delo - opazovanje/sodelovanje v dejanskih načrtovanih izobraževalnih dejavnostih.

Learning and teaching methods:

1. Team work - small groups(4) with students from different countries.
2. Peer coaching - small groups (3/4) from different countries.
3. Debate, brainstorming, discussion panel, presentation, mind maps.
4. Work field - observe/cooperate in planned activities in educational realities.

Načini ocenjevanja:

Delež (v %) / Weight (in %)

Assessment:

Portfolio za celoten predmet, ki vključuje: reflektivni dnevnik (vsaj 4), pisna povratna informacija od kolegov/učiteljev, učna priprava (vsaj 2), multimedijška predstavitev (npr. šolskega sistema), izobraževalni projekt (timsko delo), esej.	70	One Portfolio for the whole course and including: reflective diary (at least 4), written feedback from peers/teachers, lesson plans (at least 2), multimedia presentation (for example of school system), educational project (team work), essay.
Končni izpit, ki preverja znanje in razumevanje vsebine predmeta.	30	Final Test concentrated on knowledge and understanding content matters.
