Dear Colleagues and Friends,

We are proud to present the IUC Academic Programme for 2025! Each year, the IUC offers over sixty short-term academic programmes designed for students, scientists, and professionals. These programmes address pressing scientific and societal topics through a broad, interdisciplinary approach. With these offerings, the IUC aims to promote internationalisation, enhance awareness, and deepen the knowledge of the academic community.

Annually, the IUC brings together scholars, students, and professionals from different countries, cultures, and academic disciplines for collaborative research and education. This international cooperation is more crucial than ever, as the world faces challenges such as environmental degradation, human rights issues, and the urgent need for peace and security. By serving as an open platform for the exchange of knowledge and ideas, the Inter-University Centre strives to support academic communities in their pursuit of healthier, more equitable societies. For this reason, all our programmes are organised by international teams of scholars. This year alone, course leaders come from over 30 countries, and participants literally from all corners of the world.

A defining feature of the IUC is its egalitarian academic environment, where professors and students exchange ideas and engage in discussions as equals. This fosters long-term relationships and professional networks that, as attested by our course leaders and participants, provide lasting value for future careers. With so much to gain, there's every reason to join us!

Interested? Browse our brochure to discover a programme that captures your interest. Whether you have general inquiries, wish to learn more about a specific course or conference, or are looking to register as a participant or organise a new international event, feel free to visit our website or contact our office. We look forward to welcoming you!

Dubrovnik city has a long history of independence. Its historical status as a free city-state with a neutral diplomatic politics has been perpetuated in the ancient republic's motto "Libertas" (Latin for freedom). This spirit of freedom is making Dubrovnik a symbolic location for the IUC since it coincides well with the profile of the Centre as an independent organization that wishes to be a sanctuary of academic freedom, where participants freely think and express themselves, being inspired by the past to find solutions for a better future.

SCHOLARSHIPS

There are a few scholarship opportunities:

- Croatian Ministry of Science, Education and Youth offers scholarships for Croatian participants.
- The IUC South-East European Scholarship Fund is securing scholarships to PhD students from this region, studying or teaching in the fields of humanities and social sciences.
- Marija and Mirjan Damaška Scholarship Fund is intended for IUC human rights and mass atrocities prevention courses. Beneficiaries can be from non-EU countries in SEE, and exceptionally from other countries, if they are affected by conflict or instability, and if the courses relate to ways to overcome them.

Furthermore, other national funding institutions and foundations often offer scholarships or grants for IUC post-graduate courses. And in ERASMUS programme PhD mobility grants are available for students, while staff can use grants for training. Training grants are also eligible for students in case a blended programme is organized. IUC programmes may also receive ERASMUS+ support under BIP (Blended Intensive Programmes), when one of the members of the consortium is a Croatian higher education institution (HEI). Course and conference participants should approach the academic exchanges service at their home universities for further inquiries.

For more information on scholarship facilitated by the IUC, scan the QR code.

CREDIT POINTS

A certificate of attendance is awarded to each student, who attends a full course and satisfactorily completes tasks established by course directors. Course directors secure the recognition of ECTS points at home universities. The decision on number of ECTS points is made in accordance with the university and the respective graduate and research training programme. ECTS points will be measured by the necessary workload of the student to achieve defined learning outcomes and competences. The workload includes time the student needs for lectures, seminars, independent work, reading, learning, writing a paper, and presenting a paper and/or exam.

INVITATION TO ORGANIZE AN IUC PROGRAMME

The IUC is open to new entries. The IUC programme must be international; organized by professors from at least two different countries with lecturers and students from at least three different countries. All IUC programmes are at an advanced academic level. Course organizers coming from IUC member institution are to secure the general fee of 600 €. General fee for non-members is slightly higher. Participants pay individual fee of 55 €, while online participation fee is 27,5 €. Applications for the next academic year with detailed course and conference information are submitted in spring and approved by the IUC Executive Committee.

For more information, scan the QR-code.

ABOUT THE IUC

The Inter-University Centre Dubrovnik is an independent centre for advanced study, grounded in its international network of partner universities. The mission of the IUC is promotion and implementation of international cooperation in the academic community as well as network building for peaceful co-existence and pluralism regionally and worldwide.

The idea to establish the Inter-University Centre (IUC) was launched in 1970 at the meeting of the International Association of Universities, by Prof. Ivan Supek, at that time Rector of the University of Zagreb. He suggested building an institution fully controlled by cooperating universities, free of government control. This idea corresponded to the vision of numerous scholars and university leaders around the world and official inauguration took place in 1972, at the first meeting of the IUC Council. Among the individuals who remained close to the IUC from the very beginning and widely contributed to building international scholarly cooperation were Prof. Ørjar Øyen from University of Bergen, Prof. Peter Fischer-Appelt from University of Hamburg, Prof. Nasrollah Fatemi from Fairleigh Dickinson University and Ms. Berta Dragičević from Dubrovnik.

Since its foundation the main practice of the IUC was and is the organisation of different sorts of courses and conferences within the broad spectrum of scientific disciplines. Each course and conference is provided by scientific staff from multiple countries. In doing so, the IUC Dubrovnik takes pride in bringing together scholars and students from different countries, cultures and academic disciplines to advanced research and higher education programmes. In its activities, the IUC Dubrovnik maintains high standards of scientific quality, and provides an open space for critical thinking and innovation.

The IUC emphasises and supports attention for inter-disciplinary and cross-national collaboration on global challenges, encouraging, in addition to East-West collaboration also new North-South initiatives. The IUC also stimulates development of research activities, in particularly related to the courses and conferences within the programme and contributes to connecting leading international partner universities to regional academic institutions.

Today, with all the divisions, violent conflicts, inequalities, environmental and health issues our world is facing, the need for an independent institution, which would offer a platform for dialogue and exchange of ideas, is more than acute. The IUC is set to continue with its mission of bringing societies together through science and education.

ACKNOWLEDGEMENT

We are grateful to all that are supporting Inter-University Centre Dubrovnik. University of Zagreb is securing the logistical infrastructure while member institutions support the operation with membership fees. The Croatian Ministry of Science, Education and Youth is offering the support for operation and scholarships, while many other foundations such as German DAAD support IUC participants. Support has been received from many foreign Embassies in Croatia, such as American, British, Swiss, Dutch, Norwegian and Indian. Special thanks go to private donors, who contribute to our scholarship funds, especially Prof. Mirjan Damaška. Finally, thanks are expressed to all course directors and home institutions of participants for securing funds for the IUC programmes. The IUC is tremendously grateful to all the individuals who have helped build and maintain the IUC through many difficult periods.

IUC Council. The IUC is structured as a consortium of universities and other scientific institutions forming the Centre's policies and objectives. Each Member Institution delegates one representative to the Council, which is the policy-making and the highest governing body of the IUC. Also it is responsible for the Constitution of the Centre, admission of new members, establishment of fields of study and academic cooperation, budgetary matters, Executive Committee election & appointment of the Director General. It is chaired by Chair of the Council.

Executive Committee acts on behalf of the Council between Council Meetings on the formation of the annual academic programme, acceptance of budget and financial reports and agreements & contracts with other institutions. It is chaired by Chair of the Executive Committee.

Director General is responsible for the Centre, its programmes and finances.

IUC Association provides a legal basis for the functioning of the Centre, for the personnel, premises, equipment and required funding. It was registered in November 1994 in order to provide the continuity of the institution in the new legal settings of the Republic of Croatia. It is chaired by President of the Association.

All governing functions at the IUC are performed by dedicated members on voluntary basis.
